The Honorable Julius Genachowski, Chairman  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Re: DA 12-1863, IB Docket No. 12-340; RM-11683 Reply Comments

Dear Chairman Genachowski:

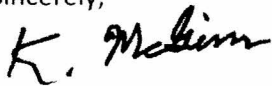

Be it at work or at home, I am very dependent on having reliable service for my mobile broadband network devices. This is especially true when I need to contact my children or parents.

One way that we can maintain that reliability is to increase the number of firms that provide mobile broadband services. LightSquared has a license modification application pending before the Federal Communications Commission that, once approved, will help address the need for more firms entering the field.

As I am not alone in this need for reliability, adding LightSquared to the list of available service providers will be a benefit for all of us. Please do everything you can to facilitate approval of the LightSquared proposal.

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "K. McGinn".
